

Urban Wildlife Tour

Minneapolis is teeming with wildlife you might miss from a car. Squirrels, for example, including rare albinos. Plus, plenty of pigeons and other awesome city birds. Don't think you won't spot a deer, because you just might!

There are no guarantees you will see actual wildlife on this tour, although we'd be shocked if you didn't at least see a squirrel or a sparrow. You will have a nice ride, though.
